This document is intended to provide a simple, easy reference guide. It does not replace by any means the information available in the extended Safety Data Sheet as provided by your supplier, which must always be consulted to ensure safe working practices with lime substances and lime containing mixtures.
Safe handling of lime

Personal protection

Eye / face protection
Do not wear contact lenses. For powders, tight fitting goggles with side shields, or wide vision full goggles. It is advisable to have individual pocket eyewash.

Skin protection
The use of protective gloves, protective standard working clothes fully covering skin, full length trousers, long sleeved overalls, with close fittings at openings and shoes resistant to caustics and avoiding dust penetration are required.

Respiratory protection
Local ventilation is recommended. A suitable particle filter mask is recommended, depending on the expected exposure levels – please check the relevant exposure scenario provided by your supplier.

First aid measures

Following inhalation
Move source of dust or move person to fresh air. Obtain medical attention immediately.

Following skin contact
Carefully and gently brush the contaminated body surfaces in order to remove all traces of product. Wash affected area immediately with plenty of water. Remove contaminated clothing. Seek medical advice if necessary.

Following eye contact
Rinse eyes immediately with plenty of water and seek medical advice.

After ingestion
Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Seek medical attention.

Classification and labelling of lime substances

According to regulation (EC) 1272/2008 (CLP regulation)

Skin irrit. 2, H315 (Causes skin irritation).
STOT SE 3, H335 – Route of exposure: Inhalation (May cause respiratory irritation).
Eye Dam. 1, H318 (Causes serious eye damage).
